HH

Header Hanger

For fast, accurate installation of door and window headers and other cross members. HH header hangers can speed up the job, strengthen the frame, and eliminate the need for trimmers.

Material: 16 gauge

Finish: Galvanized

Dimensions

- Use all specified fasteners; see General Notes
- Attachment to 2x studs will result in two round holes not being filled in the studs and load reductions as noted in table

Codes: See p. 12 for Code Reference Key Chart

2. For 3x posts, 0.162" x $2\frac{1}{2}$ " nails may be substituted with no reduction in load.

3. For SPF/HF lumber, use 0.86 ${\rm x}$ DF/SP allowable loads.

4. Fasteners: Nail dimensions in the table are listed diameter by length. See pp. 21-22 for fastener information.

RR

Ridge Rafter Connector

An interlock provides alignment control and correct nailing locations. For a rafter-to-face connector, flatten the top flange into the face plane. The RR may be used with rafters sloped up to 30°.

Material: 18 gauge

Finish: Galvanized

Installation:

• Use all specified fasteners; see General Notes

Codes: See p. 12 for Code Reference Key Chart

SD Many of these products are approved for installation with Strong-Drive® SD Connector screws. See pp. 335–337 for more information.

		Fasten	ers (in.)		Allowable Loads ¹		
Model	Min. Rafter		Rafter	Uplift (160)	DF/	SP	Code
No.	Size	Header			Floor (100)	Roof (125)	Ref.

1. Roof loads are 125% of floor loads unless limited by other criteria. Floor loads may be adjusted for load durations according to the code provided they do not exceed those in the roof column.

2. **Fasteners:** Nail dimensions in the table are listed diameter by length. See pp. 21–22 for fastener information.
